The Santa Cruz City Council will decide soon whether to relocate our Downtown Library.

**Time to say NO!** Don’t make the Library part of a $100 million, 6-story mixed-use concrete parking garage that displaces the Downtown Farmers’ Market and contradicts the City’s Climate Action Plan.

- No more delay of Downtown Library reconstruction.
- No mixed-use project on lot 4 — the successful location of the Downtown Farmers’ Market.
- No, to increasing auto emissions. We cannot confront climate change while building another parking garage.
- No Parking District expenditure on an unneeded parking garage. We can assure parking supply by better management.
- No combining the Downtown Library and other mixed-use components with shaky funding mechanisms that risk fiscal insolvency during a recession.

**Time to say YES!** Reconstruct the Library where it is.
Adopt Jayson Architecture’s proposal for a rebuilt, renewed downtown library with outdoor spaces and adjacent parking.

Preserve and enhance the Farmers’ Market where it is.

Transform a parking lot into a beautiful public space for community — an open-air Downtown Commons anchoring a walkable downtown.

Save our heritage trees, promote clean air and the environment.

Practice conservative fiscal responsibility in recession-era City budgeting.

Build affordable housing on other nearby city-owned properties downtown.
